

COMPUTER NETWORK ENGINEERING

CIP Code: 11.0901

Program Overview

This is an instructional program that focuses on the design, implementation and management of linked systems of computers, peripherals and associated software and prepares individuals with the technical skills required to support networks and network users. This program includes instruction in networks technologies and standards: system design, architecture, operating systems, security, communications protocols, client support, messaging services, network management, trouble shooting and server optimization. Those completing the program may be employed as an entry-level network administrator, network specialist, network technician, webmaster, client services analyst (end user) or network operator.

Classes are held Monday thru Friday from 8:15am-2:45pm.

Program Cost: \$4,500.00

**Estimated expenses not included in tuition: Required clearances (\$55.00), certification testing (\$500.00+), textbook (\$100.00), supply (N/A) and/or uniform (N/A) costs.*

Textbook Requirements:

TestOut License Fee (Additional program content is delivered and available digitally)

Certifications: TestOut PC Pro, Network Pro, CompTIA A+ and Network+, Microsoft Professional, Cisco, and NOCTI

Program Start Dates: Fall (Late August) OR Spring (Mid-January) Semester Annually

Program Length: 900 hours
